# Porter Academy Summer Camp

## *Summer Camp Weekly Themes*

- June 11-15: Barnyard Blast
- June 18-22: Creative Construction
- June 25-29: Where the Wild Things Are
- July 2-6\*\*: American Vacation
- July 9-13: Bug's Life

## *The Program*

- Pre-K through 4th grade
- Homerooms grouped by social-developmental levels
- Low student: staff ratio all day
- Direct academic instruction of language arts, reading, and math provided in groups of 3-6 students per staff
- PE, Music Therapy, OT, and Social Skills provided in a group setting
- Integrated Curriculum ensures academic skills are covered in various creative ways
- Activities include arts and crafts, music, nature walks, and cooperative games

## *The Porter Academy Summer Camp is extraordinary*

When the school year begins, many parents and teachers tell us that children have "lost" academic skills over the summer. The goal of Porter Academy Summer Camp is to help students maintain their recently acquired academic skills by providing a fun, but educational, camp experience.

Porter Academy Summer Camp offers five weekly thematic units. Core academics (reading and math) are integrated with science, social studies, and art to create engaging educational activities that relate to that week's theme. Additionally, students are pulled out into small groups to directly reinforce reading and math skills at each child's individual level. Campers also receive physical education, occupational therapy, music therapy, and social skills education.

The experience is further enhanced for campers by including in-school enrichment activities provided by outside professionals such as scientists, magicians, jugglers, farm animals, story tellers, and other special visitors.

## *Full Day 9 am-3 pm*

Full day camp combines both the morning and afternoon sessions to give your child the best of both programs in one full day.

Your child will benefit from homeroom activities, small group instruction, all special events and activities, as well as PE and OT activity times.

## *Morning Only 9 am-12:30 pm*

The academic program emphasizes helping students to maintain and build skills in reading, language arts, and math. Most of our outside professionals visit during the morning hours as well.

## **Extended Day offered 3:15-5:30**
